

## Regarding implementation standards for educational activities

### 【Issuance of weather information】

< Criteria for determining leave of absence, etc. >

#### **"Special warning" "Disaster prevention weather information for alert level 4 or above (including landslides)"**

**If at least one of the "Storm Warnings" has been issued (southern part of Hamamatsu City or where you live).**

① If the warning, etc. for the school location and residence is lifted by 9:00 a.m.

⇒ Go to school after confirming safety

② If a warning is still in effect at 9:00 a.m. in the school location, the school will be closed.

③ If the warning is still in effect at 9:00 a.m. in your place of residence, you will be treated as suspended from attending

● Even in the place of residence, safety is the top priority and if the guardian deems it dangerous, Stay at home (handle as suspension of attendance and be sure to notify the school).

● Even in situations other than those listed above, safety is our top priority and school closures may be implemented at the discretion of the principal.

● We will notify the implementation/cancellation of school closures on COCOO as soon as they are decided, but even if we do not receive any notification, we will continue to work with each family at home based on the above standards and with safety as our top priority. Please judge.

※ Check with Kikikuru (Japan Meteorological Agency), Hamamatsu City Emergency Information, Shizuoka Prefecture Disaster Prevention App, etc. to see if it is safe. Please make your own judgment.

## 【Announcement of Nankai Trough Earthquake Temporary

Information (under investigation), large-scale earthquake

(seismic intensity 5 lower or higher) occurring】

Before school	After school and during class	While going to school/leaving school
Temporary school closure	Hand over to guardian	go home or Handing over to parents at school

- If a disaster occurs before or while commuting to school, please report your child's safety to the school immediately.
- Schools will be closed in the event of a large-scale earthquake with a seismic intensity of lower 5 or higher, or an announcement of Nankai Trough Earthquake Temporary Information (under investigation) or higher. Please wait at home until you are contacted to return to school.
- Please be sure to contact the school to inform them of your safety.  
Please use COCOO, telephone, email, web171 (if 171 is in operation, please call the school phone number 053-471-8197 for registration), etc.COCOO

※Please keep this paper so that you can check it at home.
