

What Children do when emergency happens

(1) Big earthquake

Children' s situation when earthquake happens	at home (before going to school)	During the class	On their way to school / home	
What children have to do?	School is closed	Children are taken over to their parents immediately	Children who use the school bus: Bus stops its operation. Children are taken over to their parents S B	Children who go to school by their own: They go to the nearest Hinan-zyo. (evacuation place)

(2) If there is any official information about Nankai-Traff Earthquake

Name of the information	at home (before going to school)	During the class	On their way to school / home	
Temporary information about Nankai-Traff earthquake	School is closed	Children are taken over to their parents immediately	Children who use the school bus: Bus runs as usual S B	Children who go to school by their own: They go to school as usual. Teachers tell about the earthquake information to parents.
While the information is continuing	School is closed			

※1 The school bus staffs stop the bus at safe place. Then they tell the situation to the school.

Teachers will tell the situation to the parents and ask them to pick up their children.

※2 Contact to the parents and ask them to pick up their children.

If it' s necessary, teachers walk commuting routes by themselves and confirm the safety.

Public transportation will stop their operation, so teachers go to stations or bus stops, in order to confirm children' s safety.

(3) If any alerts of strong wind, liver flood, heavy rain are announced at Kakegawa area and they are at Keikai level(very dangerous level).

The name of information		The alert level	What children do, as for evacuation	If children are at home	If children are at school
Chuui-hou (Attention alert)	Heavy rain	2	Confirm how to evacuate	Normal classes • We think what children will do, according to the rain or liver conditions. • Parents considering children' s safety, they can stay at home(study at home). In that case, parents should inform it to the school.	
	Liver flooding				
	Strong wind				
Kei-hou (alert)	Heavy rain	3	Evacuate (people who require time to evacuate, such as elderly, handicapped people, small children)		
	Liver flooding				
Kei-hou (alert)	Strong wind	4	Everyone evacuates to safe place	If alert is continued at 6 a.m. →School is closed	Wait at school or take over to parents
	The danger of liver flooding or landslide				
Tokubetsu-Kei-hou (special alert)	Heavy rain Strong wind	5	Disaster has already occurred. Everyone consider their life first and take actions.		

◎If the alert level is 3 or bigger, and there is a danger of landslide or liver flooding, parents consider their children' s safety first and take actions by their own decision.

(4) If blackout (electricity is out of order) happens

School will be closed and children stay at home, until the school recovers its electricity supply.

(5) If J-alert is announced

If J-alert is announced, children take evacuative actions or wait at school.
